

With Compose™ PLC,
you not only control the lights in your home,
you control peace of mind.

Nothing feels better than the comforts of home. With Compose PLC lighting control system, you can easily use lighting to enhance your home and change the mood with the touch of a button. Illuminate pathways as you approach and set up schedules to turn your home's lighting on at night – and off at dawn.

Compose PLC, the trusted name in professional lighting control, has been installed in thousands of homes and has won awards from the industry's premier publications and associations. Give your family peace of mind with the security and flexibility Compose PLC provides.

Compose PLC seamlessly integrates with security and whole house automation systems. Its affordability and ease-of-installation earn praise from homeowners and installers alike. For more information on Compose PLC, visit our website at www.lolcontrols.com. And find out how lighting your home can bring you peace of mind.
